Informed Consent

Chiropractic, as well as other types of health care, is associated with potential risks in the delivery of treatment. Therefore, it is necessary to inform the patient of such risks prior to initiating care. While chiropractic treatment remarkably safe, you need to be informed about the potential risks related to your care to allow you to be fully informed in consenting to treatment.

Specific Risk Possibilities Associated with Chiropractic Care are:

Stroke: Stroke is the most serious complication of Chiropractic treatment. It is rare. According to the journal of CCA, vol 347, no.2 June 1993, recent studies estimate the risk of this type of strokes is 1 in every 3 million upper cervical adjustments. Vertebral arteries, which supply the brain with blood, are located within in the bones of the upper spine. Therefore, cervical treatment poses a small risk for stroke, which is temporary or permanent brain dysfunction. On extremely rare conditions, death occurs.

Soreness: Chiropractic adjustments are sometimes accompanied with post treatment soreness. This is normal, but please advise your doctor of Chiropractic of the soreness.

Soft Tissue Injury: Occasionally, Chiropractic treatment may aggravate a disc injury, or cause minor joint, ligament, tendon, or other soft tissue injury.

Rib Injury: Manual adjustments to the thoracic spine, in rare cases, may cause a rib injury or fracture. Precautions such as pre-adjustment x-rays are taken in cases considered at risk. Treatment is performed carefully to minimize risk.

Physical therapy Burns: Heat generated by physical therapy modalities can cause minor burns to the skin. These are rare but should be reported, as well as other side effects you may be experiencing.

Chiropractic is a system of healthcare delivery and therefore, as with any healthcare delivery system, we cannot promise a cure for any symptoms, condition, or disease. In an attempt to provide the best chiropractic care is our goal, and if the result is not successful, we will refer you to another healthcare provider. If you have any questions, please ask your doctor.
